We are looking for persons to add value to the certification program. We wish to avoid using moderators that are only using the AV material, and not expanding on the presentation. We want moderators to remain in the classroom as much as possible, and follow along in the book with the presentation as if they were a student, keeping up with the AV presentation, and pausing it at appropriate points in order to emphasize important sections in the material, or expand on important ideas. Moderating for the SW Section IMSA is a privilege and is "at will."
